PROSPECTUS

Auricular Acupuncture Practitioners Certificate

Thank you for your enquiry into the Auricular Acupuncture Practitioners Certificate. This certificate enables practitioners to develop their knowledge of Auricular Acupuncture so that they can treat:

- Mental Health conditions
- Addictions
- Allergies
- Digestive disorders
- Pain Management
- Nervous conditions

COURSE TRAINING

Pre-course Reading

Pre-course reading will be sent prior to the course, which will need to be thoroughly read before attending the start of the course.

Theoretical and Practical Training

The training covers Auricular Acupuncture theory from both Western Medicine and Chinese Medicine approaches. It looks at the pathology of the ear and its interrelationship in treating chronic conditions, disorders and pain management. Safe auricular acupuncture needling practice, techniques and controls are an important feature of the course.

THE COLLEGE OF AURICULAR ACUPUNCTURE

www.auricularacupuncturecollege.com

Practical assessments are carried out throughout the course. A written examination is taken on the final day. This course offers a good combination of both practical and theory work.

ANATOMY & PHYSIOLOGY HOME STUDY COURSE

On completion of the training you will be required to complete an Anatomy and Physiology Home Study Pack (estimated 12 to 24 hours study time) covering areas such as:

- Joints and bones
- Tendons, ligaments and muscles
- Endocrine glands
- Respiratory system
- Autonomic nervous system
- Digestive system
- Circulatory system
- Organs
- Arteries and veins

CASE HISTORIES

You will be required to complete a minimum of 5 Case Histories with a minimum of five treatments each, or 60 treatments

Open College Network Accreditation

Once students have completed and passed the Auricular Acupuncture Practitioners Certificate course, they will be registered with the Open College Network. At the beginning of the training it is explained what they will need to achieve by the end of the course. The tutor continually assesses progress for the duration of the course in a variety of ways, both practical and written. All students achieving the goals of the course receive certificates from both The College of Auricular Acupuncture and the Open College Network.
